Place Value Worksheet

Write the number in the expanded form and then write in standard form.

$$\text{six hundreds, six tens, five ones} \quad \underline{600} + \underline{60} + \underline{5} = \underline{665}$$

$$\text{eight hundreds, nine tens, seven ones} \quad \underline{800} + \underline{90} + \underline{7} = \underline{897}$$

$$\text{seven hundreds, five tens, nine ones} \quad \underline{700} + \underline{50} + \underline{9} = \underline{759}$$

$$\text{two hundreds, three tens, six ones} \quad \underline{200} + \underline{30} + \underline{6} = \underline{423}$$

$$\text{five hundreds, six tens, seven ones} \quad \underline{500} + \underline{60} + \underline{7} = \underline{567}$$

$$\text{seven hundreds, nine tens, two ones} \quad \underline{600} + \underline{90} + \underline{2} = \underline{692}$$

$$\text{eight hundreds, seven tens, four ones} \quad \underline{800} + \underline{70} + \underline{4} = \underline{874}$$

$$\text{six hundreds, seven tens, nine ones} \quad \underline{600} + \underline{70} + \underline{9} = \underline{679}$$

$$\text{five hundreds, six tens, four ones} \quad \underline{500} + \underline{60} + \underline{4} = \underline{893}$$

$$\text{nine hundreds, two tens, nine ones} \quad \underline{900} + \underline{20} + \underline{9} = \underline{929}$$
